

**STANDARD GRADES BEECH**

**ABALON**

**HARDWOOD**

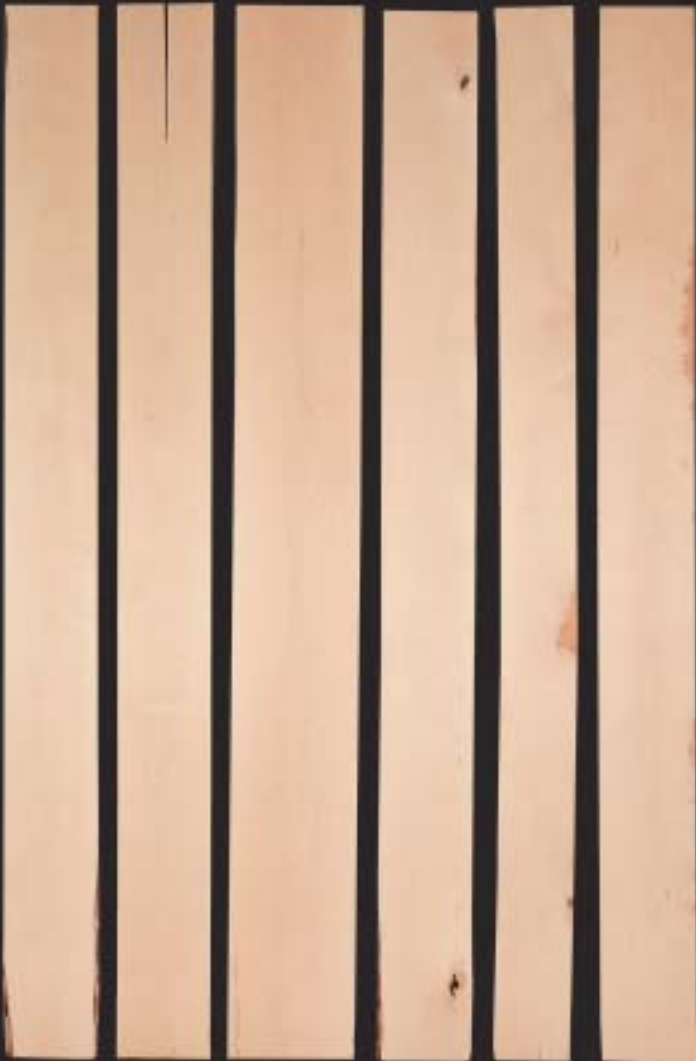

# SUPERIOR

Beech, lightly steamed, pre-planed

**SUPERIOR** is our finest grade - ideal for high quality products, providing the highest possible amount of long final lengths. Typically, **SUPERIOR** is used for mouldings, long plank flooring products and also of course for furniture and panels (long lengths).

**Width:** 150 mm and wider

**Length:** 2,00 m; 2,25 m; 2,45 m; 2,75 m; 3,05 m; 4,15 (3,85) m

**Front Side**

**Back Side**

# ABALON

## SUPERIOR 1 FACE

Beech, lightly steamed, pre-planed

*SUPERIOR 1 Face is a special sort for 1-side-applications: On the front side, these boards exactly correspond to our regular SUPERIOR, but on the back side defects like red heart, knots, ... are allowed. Thus, SUPERIOR 1 Face is very economical for flooring products, worktops, stair treads, and furniture parts that only require one good face.*

**Length: 2,00 m; 2,25 m; 2,45 m; 2,75 m; 3,05 m; 4,15 (3,85) m**

**Front Side**

**Back Side**

# CABINET

Beech, lightly steamed, pre-planed

*CABINET* is a high grade for applications still requiring predominantly long lengths, but the user also should be able to make good use of the medium/shorter pieces, appearing after ripping/chopping. Typical applications of *CABINET* are furniture and edge-glued panels.

**Length:** 2,00 m; 2,25 m; 2,45 m; 2,75 m; 3,05 m; 4,15 (3,85) m

**Front Side**

**Back Side**

# CUSTOM SHOP

Beech, lightly steamed, pre-planed

*CUSTOM SHOP* is a very economical sorting for applications that require also medium and shorter final lengths (furniture parts, solid/finger-jointed panels,...), or for „rustic“ or „country“ grade applications that allow defects, especially knots, in the final product.

**Length:** 2,00 m; 2,25 m; 2,45 m; 2,75 m; 3,05 m; 4,15 (3,85) m

**Front Side**

**Back Side**

# SUPERIOR COLOUR

Beech, lightly steamed, pre-planed

**SUPERIOR COLOUR** is the top-grade for applications allowing (or even preferring) red heart. **SUPERIOR COLOUR** exactly corresponds to our regular **SUPERIOR**, but in **SUPERIOR COLOUR** red heart is not considered a defect. Typical applications: Mouldings, furniture, flooring products,....

**Length:** 2,00 m; 2,25 m; 2,45 m; 2,75 m; 3,05 m; 4,15 (3,85) m

**Front Side**

**Back Side**

# COLOUR

Beech, lightly steamed, pre-planed

**COLOUR** includes the red hearted *CABINET* and *CUSTOM SHOP* boards - thus red heart not being considered a defect in this grade. Typical applications of **COLOUR** are non-visible products (upholstery frames) or rustic or country style (red/white) products allowing red heart and knots up to a certain extent.

**Length:** 2,00 m; 2,25 m; 2,45 m; 2,75 m; 3,05 m; 4,15 (3,85) m

**Front Side**

**Back Side**

# ABALON

# BEECH

Beech, lightly steamed, pre-planed

## Thickness

**26 (23,8) mm; 32 (29,5) mm; 38 (36) mm; 52 (48,5) mm**

*As a service for our customers we knife plane our lumber in order to allow for reliable grading and sorting in our mill. This furthermore enables you to use our lumber simply and economically. Compared to rough or abrasively surfaced (sanded) lumber we feel that knife planing is the best way to clearly show the true faces of a hardwood board.*

## Width

**SUPERIOR (all thicknesses):**

**150 mm and wider**

**SUPERIOR 26/32 mm also sorted-to-width:**

**100/125 mm, 125/150 mm**

**All other grades**

**100 mm and wider**

**More specific width-sortings on request!**

*On request of some of our customers we now offer a special sort **XXL**, for customers who do prefer wide and rough boards:  
**XXL- rough and wide 300 mm and up.***

*For more information please refer to the previous pages regarding the particular grades.*
